1.0 FUNDING OPPORTUNITY DESCRIPTION

1.1 LEGISLATIVE AUTHORITY

Legislative authority is provided under section 101 of the Specialty Crops Competitiveness Act of 2004 ([7 U.S.C. § 1621 note](#)) and amended under section 10107 of the Agriculture Improvement Act of 2018, Public Law 115-343 (the Farm Bill). SCBGP is currently implemented under [7 CFR § 1291](#) (published March 27, 2009; [74 FR 13313](#)).

1.2 PURPOSE

The Specialty Crop Block Grant Program (SCBGP) assists State departments of agriculture in the 50 States, American Samoa, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, the District of Columbia, Guam, and the U.S. Virgin Islands to enhance the competitiveness of specialty crops by—

- (1) leveraging efforts to market and promote specialty crops;
- (2) assisting producers with research and development relevant to specialty crops;
- (3) expanding availability and access to specialty crops; and
- (4) addressing local, regional, and national challenges confronting specialty crop producers.

Specialty crops are fruits and vegetables, dried fruit, tree nuts, horticulture, and nursery crops (including floriculture). A State department of agriculture is the agency, commission, or department of a State government responsible for agriculture within the State.

1.3 PROJECT TYPES

States are encouraged to develop projects pertaining to the following issues affecting the specialty crop industry:

- enhancing food safety;
- improving the capacity of all entities in the specialty crop distribution chain to comply with the requirements of the Food Safety Modernization Act ([21 U.S.C. Chapter 27](#)), for example, developing “Good Agricultural Practices,” “Good Handling Practices,” “Good Manufacturing Practices,” and in cost-share arrangements for funding audits of such systems (including USDA GroupGAP) for small farmers, packers and processors;
- investing in specialty crop research, including research to focus on conservation and environmental outcomes;
- developing new and improved seed varieties and specialty crops;
- pest and disease control;
- increasing child and adult nutrition knowledge and consumption of specialty crops;
- improving efficiency and reducing costs of distribution systems; and
- sustainability.

1.3.1 PROJECTS MORE RELEVANT FOR OTHER FEDERAL GRANT PROGRAMS

Entities that engage in projects that support the increased consumption of fruits and vegetables in the Supplemental Nutrition Assistance Program (SNAP) by providing incentives at the point of purchase and/or include technologies for benefit redemption systems should consider submitting those projects to the [Food Insecurity Nutrition Incentive \(FINI\) Grant Program](#).

Entities that engage in projects that support domestic farmers' markets, roadside stands, community-supported agriculture programs, agritourism activities, other direct producer-to-consumer market opportunities, and local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products should consider submitting those projects to the [Farmers Market Promotion Program](#) and [Local Food Promotion Program](#).

Entities that engage in projects that support biobased products and bioenergy and energy programs, including biofuels and other alternative uses for agricultural and forestry commodities (development of biobased products), should see the USDA energy website at <http://www.usda.gov/energy/matrix/home> for information on how to submit those projects for consideration to the energy programs supported by USDA.

1.4 DEVELOPMENT OF PROPOSALS

1.4.1 STATE DEPARTMENT OF AGRICULTURE RESPONSIBILITIES

State departments of agriculture are responsible for developing proposals and overseeing funded projects. Applicants must structure proposals so that the State department of agriculture maintains control of the project objectives, sets policy, and ensures that projects are carried out in accordance with all applicable Federal statutes and regulations as well as with the Grant Agreement Terms and Conditions. State departments of agriculture are also responsible for ensuring that subrecipients maintain appropriate records and follow all applicable Federal statutes and regulations as well as the [Grant Agreement and AMS General Terms and Conditions](#).

State departments of agriculture must ensure that proposals are appropriate for the SCBGP by reviewing section [1.2 Purpose](#). Contact a specialist listed in section [7.2 Grants Management Specialists](#) if there is any question about whether or not the project qualifies for SCBGP.

1.4.2 GROWER-LEVEL PROJECTS

State departments of agriculture are encouraged to prioritize and expand funding to projects that are supported by and address the needs of U.S. specialty crop growers. For example, if a State department of agriculture receives multiple research or marketing project proposals, SCBGP encourages it to prioritize the proposals supported by grower-level groups.

1.4.3 OUTREACH TO IDENTIFY FUNDING PRIORITIES

State departments of agriculture are encouraged to perform outreach prior to the development and release of the State's request for proposals or applications to interested parties, including beginning and socially disadvantaged farmers, through a transparent process of receiving and considering public comment to identify State SCBGP funding priorities. The State department of agriculture should conduct this outreach to ensure that the grant applications it submits to the SCBGP have been developed with proven and justified public support.

Beginning Farmer or Rancher is an individual or entity that has not operated a farm or ranch for more than 10 years and substantially participates in the operation.

Socially Disadvantaged Farmer or Rancher is a farmer or rancher who is a member of a Socially Disadvantaged Group. A Socially Disadvantaged Group is a group whose members have been subject to discrimination on the basis of race, color, national origin, age, disability, and, where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program.

1.4.4 COMPETITIVE GRANT APPLICATION REVIEW PROCESS

State departments of agriculture are encouraged to develop their State Plans through a competitive review process to ensure maximum public input and benefit. The competitive review process should follow State policies and procedures and include the use of an independent review panel of experts or qualified individuals, overseen by State officials. This review should include the factors and reasons for selecting an applicant and any changes in project proposal ranks/scores that may occur during the review process. All documentation affecting the decision to approve, disapprove, defer, or otherwise not fund an application should be maintained in an accessible, centralized program file.

State departments of agriculture must abide by [2 CFR § 400.2](#). Review panel members must be free from conflicts of interest and conduct fair and impartial reviews.

In addition, the SCBGP encourages State departments of agriculture to notify successful and unsuccessful grant applicants about the outcome of the competitive process as it relates to the applicants' proposals.

Finally, the SCBGP encourages State departments of agriculture during their competitive review process to review funding requests carefully for activities funded previously to ensure:

- The projects are likely to become self-sustaining and not indefinitely dependent upon publicly and privately granted funds;
- Funding decisions are based on the applicant's/subrecipient's past performance; and
- Specialty crop stakeholders, other than the applicant, individuals, and organizations involved in the project, support the continuation of the project.

1.4.5 MULTI-STATE PARTNERSHIPS

A multi-state partnership is a project that implements activities with measurable outcomes that benefit two or more U.S. States and/or Territories. Multi-state partnerships are encouraged and should provide solutions to problems that cross state boundaries including, but not limited to, food safety; plant pests and disease; research; crop-specific projects addressing common issues; and marketing and promotion. State departments of agriculture with multi-state partnership projects can also consider submitting those projects to the [Specialty Crop Multi-State Program \(SCMP\)](#).

1.4.6 DEFINITION OF A PROJECT

A project is a set of interrelated tasks with a cohesive, distinct, specified, and defined goal. It follows a planned, organized approach over a fixed period of time and within specific limitations (cost, performance/quality, etc.). Additionally, it uses resources that are specifically allocated to the work of the project and usually involves a team of people.

Projects are different from other ongoing operations in an organization because, unlike operations, projects have a definitive beginning and end - they have a limited duration. One way to think about this is that a project has an overarching goal that the applicant wants to accomplish through a series of individual activities or tasks. Examples of projects include:

- Researching new cultivars
- Providing outreach opportunities on specialty crops to youth, families, seniors, and the overall community
- Marketing apples through a targeted promotional campaign

Activities or tasks that could be a part of such projects might include:

- Hiring personnel
- Purchasing special purpose equipment
- Holding an educational workshop
- Planting specialty crops
- Distributing product promotional materials

2.0 AWARD INFORMATION

2.1 TYPE OF FEDERAL ASSISTANCE

AMS will use a Grant Agreement to provide support to successful SCBGP applications.

2.2 TYPE OF APPLICATIONS

New application. The SCBGP will review all new applications for conformance with the criteria in section [5.0 Application Review Information](#) and may require the applicant to provide additional information or clarification by a specified date.

2.3 AVAILABLE FUNDING

It is anticipated that approximately \$72.4 million will be available to fund applications in FY 2019. Enactment of additional Federal continuing resolutions or appropriations may affect the availability or level of funding for this program.

2.4 FEDERAL AWARD PERIOD DURATION

SCBGP projects must be completed within 3 years. The grant period must begin no later than September 30, 2019, and end no later than September 29, 2022. The applicant must indicate the start and end dates on the SF-424, "Application for Federal Assistance" in block 17. SCBGP encourages State departments of agriculture to allow ample time for completion of all projects.

2.5 BLOCK GRANT AMOUNTS AVAILABLE TO EACH APPLICANT

Subject to the amount of available funding as set forth above in section [2.3 Available Funding](#), each eligible State department of agriculture applicant that submits an application that the SCBGP reviews and accepts is eligible to receive the available grant allocation as indicated below. Each State department of agriculture is eligible to receive an estimated base grant of approximately \$241,627 and an amount based on the average of the most recent available value of specialty crop cash receipts in the State (2017 calendar year estimates) and the acreage of specialty crop production in the State (2012 Census of Agriculture). The data source for specialty crop cash receipts and acreage is the U.S. Department of Agriculture, Economic Research Service, and National Agricultural Statistics Service.

3.0 ELIGIBILITY INFORMATION

3.1 ELIGIBLE APPLICANTS

Eligible applicants are State departments of agriculture in the 50 States, American Samoa, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, the District of Columbia, Guam, and the United States Virgin Islands. A State department of agriculture is the agency, commission, or department of a State government responsible for agriculture within the State.

SCBGP expects that State departments of agriculture will consult with specialty crop growers, processors, and/or distributors before developing SCBGP project applications to ensure maximum public input and benefit. These stakeholders should play an important role in development of project goals and objectives, in implementing the project plan, and in evaluating and disseminating project results and outcomes.

3.2 ENHANCE THE COMPETITIVENESS OF SPECIALTY CROPS

Project(s) must enhance the competitiveness of U.S. or U.S. territory-grown specialty crops in either domestic or foreign markets. See the [SCBGP website](#) for a definition of specialty crops and processed products, including a list of eligible specialty crops and ineligible commodities. Each project must identify at least one expected measurable outcome that specifically demonstrates the project's impact on enhancing the competitiveness of eligible specialty crops.

3.3 BENEFIT MORE THAN ONE PRODUCT OR ORGANIZATION

Applications for grant funds should describe how the project potentially affects and produces measurable outcomes for the specialty crop industry and/or the public rather than a single organization, institution, or individual.

SCBGP will not award grant funds for projects that solely benefit a particular commercial product or provide a profit to a single organization, institution, or individual. In addition, recipients and subrecipients cannot use grant funds to compete unfairly with private companies that provide equivalent products or services. Single organizations, institutions, and individuals are encouraged to participate as project partners.

The following are some examples of acceptable and unacceptable projects:

Examples of Acceptable Projects

- A non-profit organization requests funds to demonstrate the viability of organic small fruit production and partners with Cooperative Extension to publicize the working model of diversification to other regional growers.
- A single farmer erects high tunnels on his/her property to extend the growing season of tomatoes and lettuce and conducts a field day and farm tour to encourage other small family farmers to adopt the production methods.

Examples of Unacceptable Projects

- A company requests grant funds to purchase starter plants or equipment used to plant, cultivate, and grow a specialty crop to make a profit or to expand production of a single business or organization.
- A single specialty crop organization requests grant funds to market its organization so that it can increase its membership.

3.4 COST-SHARING AND MATCHING

The SCBGP does not have a Federal cost-sharing or matching requirement.

3.5 PERFORMANCE MEASURES

AMS is required to report on the outcomes of the SCBGP on a national scale to demonstrate the performance of this program. To fulfill this requirement, AMS collaborated with stakeholders, including the Office of Management and Budget (OMB), to develop a listing of measurable outcomes and indicators that quantifiably measure performance toward fulfilling the program's purpose of enhancing the competitiveness of specialty crops. By collecting, aggregating, and reporting performance data across all States and Territories, AMS can share the impact of the SCBGP with all stakeholders, including OMB, U.S. Congress, the agricultural community, and the public.

Each project submitted in the State Plan **must** include at least one of the eight outcomes listed in the [SCBGP Evaluation Plan](#) and at least one of the indicators listed in the selected outcome(s). The progress of the one or more outcomes and indicators selected will need to be reported in the Annual Performance Report, and the results will be reported in the Final Performance Report. Please refer to the [SCBGP Evaluation Plan](#) for more information.

3.6 PROJECTS ATTEMPTING TO DISPARAGE THE WORK OF ANOTHER ORGANIZATION

It is unallowable for projects to disparage the mission, goals, and/or actions of another organization.

3.7 SUPPLANTING

Funds must supplement the expenditure of State funds in support of specialty crops grown in that State, rather than replace State funds. Additionally, Federal funding may not replace State funding that is required under [section 101\(d\)\(3\) of the Specialty Crops Competitiveness Act of 2004 \(7 U.S.C. § 1621 note\)](#). In instances where a question of supplanting arises, the applicant or recipient will be required to substantiate that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

General Supplanting Definition. A State organization reduces State funds for an activity specifically because Federal funds are available (or expected to be available) to fund that same activity.

- Example: State funds are appropriated for a stated purpose and Federal funds are awarded for that same purpose. (If a State has \$50.00 budgeted for a specialty crop program and the Federal government awards

a \$100.00 grant for the same specialty crop program, the total project must expend \$150.00 – the State cannot remove the original \$50.00 and use it for something else).

4.6 FUNDS NOT APPLIED FOR

Eligible State department of agriculture applicants who do not apply for or do not request all available funding during the specified grant application period will forfeit all or that portion of available funding not requested. SCBGP will allocate funds not applied for, by a date determined by SCBGP, pro rata to the remaining State department of agriculture applicants.

4.7 FUNDING RESTRICTIONS

4.7.1 LIMIT ON ADMINISTRATION COSTS

Administration costs are defined as indirect costs and are limited to 8 percent of the total Federal funds provided under the award per section 101(k)(2) of the Specialty Crops Competitiveness Act of 2004 (7 U.S.C. § 1621 note), as amended by section 10010, Pub. L. 113-79 (Feb. 7, 2014). The State department of agriculture must notify sub-applicants of the limit on indirect costs in its request for proposals/applications so that indirect costs requested by sub-applicants plus indirect administration costs requested by the State department of agriculture do not exceed 8 percent of the State’s grant request. If the State department of agriculture does not take the full 8 percent of indirect costs, individual subapplicants may claim the remaining portion of these costs at the discretion of the State. State-approved indirect costs in subapplicant projects may not exceed 8 percent of that project’s budget. See the information below on presenting direct and indirect costs consistently.

Presenting Direct and Indirect Costs Consistently

Applicants are responsible for presenting direct and indirect costs appropriately and consistently and must not include costs associated with their organization’s indirect cost rate agreement as direct costs. In addition, a cost may not be allocated as an indirect cost if also incurred as a direct cost for the same purpose and vice versa. For further information on how to determine if a cost is indirect or direct, please see the [Indirect Cost Decision Tree](#).

Direct costs are costs that can be identified specifically with a particular award, project or program, service, or other organizational activity or that can be directly assigned to such an activity relatively easily with a high degree of accuracy. Typically, direct costs include, but are not limited to, compensation of employees who work directly on the award to include salaries and fringe benefits, travel, equipment, and supplies directly benefiting the grant-supported project or program.

Indirect costs (also known as “facilities and administrative costs”) defined at [2 CFR § 200.56](#) are costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted without effort disproportionate to the results achieved. Refer to [2 CFR §§ 200.413](#) and [414](#) for additional information on determining if costs charged to the award are direct or indirect.

The salaries of administrative and clerical staff should typically be treated as indirect costs. However, charging these costs as direct costs may be appropriate where all the following conditions are met:

- (1) administrative or clerical services are integral to a project or activity;
- (2) individuals involved can be specifically identified with the project or activity;
- (3) such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency; and
- (4) the costs are not also recovered as indirect costs.

Typical Indirect Costs by Organization Type

Type of Organization	Typical Indirect Costs
Non-Profits	General administration and general expenses, such as the salaries and expenses of executive officers, personnel administration, and accounting, depreciation or use allowances on buildings and equipment, and the costs of operating and maintaining facilities.
Colleges and Universities	Equipment and capital improvements, operation and maintenance expenses, library expenses, general administration and general expenses, departmental administration, sponsored projects administration, student administration and services, depreciation and use allowances, and interest on debt associated with certain buildings.
State and Local Governments	State/local-wide central service costs, general administration of the applicant department or agency, accounting and personnel services performed within the applicant department or agency, depreciation or use allowances on buildings and equipment, and the costs of operating and maintaining facilities.

4.7.2 ALLOWABLE AND UNALLOWABLE COSTS AND ACTIVITIES

All SCBGP awards are subject to the most recent [AMS General Terms and Conditions, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards \(2 CFR part 200\)](#), and other laws and regulations affecting Federal assistance.

Applicants that have questions concerning the allowability of costs after reviewing the associated Federal cost principles should contact the SCBGP using the contact information listed under

7.0 Agency Contacts.

4.8 GRANTS.GOV APPLICATION SUBMISSION AND RECEIPT PROCEDURES AND REQUIREMENTS

4.8.1 HOW TO REGISTER TO APPLY THROUGH GRANTS.GOV

The registration process can take **up to four weeks** to complete. Therefore, complete your registration allowing sufficient time to ensure it does not impact your ability to meet required application submission deadlines.

If individual applicants are eligible to apply for this grant funding opportunity, refer to:

<https://www.grants.gov/web/grants/applicants/registration.html>.

Organization applicants can find complete instructions here:

<https://www.grants.gov/web/grants/applicants/organization-registration.html>

- 1) *Obtain a DUNS Number:* All entities applying for funding, including renewal funding, must have a [DUNS number](#) from Dun & Bradstreet (D&B). Applicants must enter the DUNS number in the data entry field labeled "Organizational DUNS" on the SF-424.
- 2) *Register with SAM:* In addition to having a DUNS number, organizations applying online through Grants.gov must register with the [System for Award Management \(SAM\)](#). All organizations must register with SAM to apply online. Failure to register with SAM will prevent your organization from applying through Grants.gov. **SAM.gov accounts must be updated annually, and your organization must have an active SAM.gov account to submit your application to Grants.gov.**
- 3) *Register with Grants.gov:* The next step in the registration process is to [create an account with Grants.gov](#). Applicants must know their organization's DUNS number to complete this process. Completing this process automatically triggers an email request for applicant roles to the organization's E-Business Point of Contact (EBiz POC) for review. The EBiz POC is a representative from your organization who is the contact listed for SAM. To apply for grants on behalf of your organization, the EBiz POC will need to identify and assign an individual to the Authorized Organizational Representative (AOR) role.
- 4) *Authorize Grants.gov Roles:* After creating an account on Grants.gov, the EBiz POC receives an email notifying him or her of your registration and request for roles. The EBiz POC will then log in to Grants.gov and [authorize the appropriate roles](#), which may include the AOR role, thereby giving you permission to

complete and submit applications on behalf of the organization. You will be able to submit your application online any time after you have been approved as an AOR.

- 5) *Track Role Status*: After registering with Grants.gov and authorizing the applicant AOR, Grants.gov allows you [to track your status](#).
- 6) *Electronic Signature*: When applications are submitted through Grants.gov, the name of the organization's AOR who submitted the application is inserted into the signature line of the application, serving as the electronic signature. The EBiz POC **must** authorize individuals who are able to make legally binding commitments on behalf of the organization as AORs. **This step is often missed, and it is crucial for valid and timely submissions.**

4.8.2 HOW TO SUBMIT AN APPLICATION TO AMS VIA GRANTS.GOV

Applicants can apply using Grants.gov Workspace. Workspace is a shared, online environment where members of a grant team may simultaneously access and edit different webforms within an application. For each funding opportunity announcement, you can create individual instances of a Workspace.

- 1) *Create a Workspace*: This allows you to complete your Workspace online and route it through your organization for review before submitting.
- 2) *Complete a Workspace*: Add participants to the Workspace, complete all the required forms, and check for errors before submission.
 - a. *Adobe Reader*: If you decide not to apply by filling out webforms you can download individual PDF forms in Workspace so that they will appear similar to other Standard or AMS forms. The individual PDF forms can be downloaded and saved to your local device storage, network drive(s), or external drives, and then accessed through Adobe Reader.

NOTE: You may need to visit the [Adobe Software Compatibility page on Grants.gov](#) to download the appropriate version of the software.
 - b. *Mandatory Fields in Forms*: Fields marked with an asterisk and a different background color are mandatory fields you must complete to successfully submit your application.
 - c. *Complete SF-424 Fields First*: The forms are designed to fill in common required fields across other forms, such as the applicant name, address, and DUNS number. To trigger this feature, an applicant must complete the SF-424 information first. Once it is completed, the information will transfer to the other forms.
- 3) *Submit a Workspace*: Submit your application through Workspace by clicking the Sign and Submit button on the Manage Workspace page, under the Forms tab. Grants.gov recommends submitting the application package **at least 24 to 48 hours prior to the due date** to provide you with time to correct any potential technical issues that may disrupt the application submission.

SPECIAL NOTE: Grants.gov **does not** check for AMS required attachments. It is the applicant's responsibility to ensure that all required attachments listed in section 4.3 Content and Form of Application Submission are included.

- 4) *Track a Workspace*: After successfully submitting a Workspace package, Grants.gov automatically assigns a Tracking Number (GRANTXXXXXXX) to the package, which will be listed on the Confirmation page generated after submission.

Applicant Support: Grants.gov provides additional [training resources, including video tutorials](#). Applicants may also call the 24/7 toll-free support number 1-800-518-4726, or email support@grants.gov. Grants.gov will issue a ticket number that you and Grants.gov can refer to if the issue is not resolved. For questions related to the specific grant opportunity, contact mentioned in section

7.0 Agency Contacts.

4.8.3 TIMELY RECEIPT REQUIREMENTS AND PROOF OF TIMELY SUBMISSION

All applications must be received by the due date established in section 4.4 Submission Date and Time. Proof of timely submission is automatically recorded by Grants.gov using an electronic date/time stamp generated when the application is successfully received by Grants.gov. The applicant AOR will then receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov. Applicant AORs will also receive the official date/time stamp and Grants.gov Tracking Number in an email serving as proof of their timely submission.

When AMS successfully retrieves the application from Grants.gov and acknowledges the download of submissions, Grants.gov will electronically acknowledge receipt of the application to the applicant AOR's email address. Again, proof of timely submission shall be the official date and time that Grants.gov receives your application.

AMS will not accept application packages by fax, email, or postal mail. Applications received by Grants.gov after the established due date for the program will be considered late and will not be considered for funding by AMS. See [AMS' Policy on Late Applications](#).

Special Note for Applicants with Slow Internet Connections. Applicants using slow internet connections, such as dial-up connections, may experience significantly longer transmission times when submitting their application to Grants.gov, especially if there are large attachments contained in the upload. Again, Grants.gov will provide either an error message or a successfully received transmission notification via email to the applicant AOR.
